APPLICATION POSSIBILITIES

2:1 – 3.000 kg – TP 440 mm

2:1 – 2.500 kg – TP 520 mm

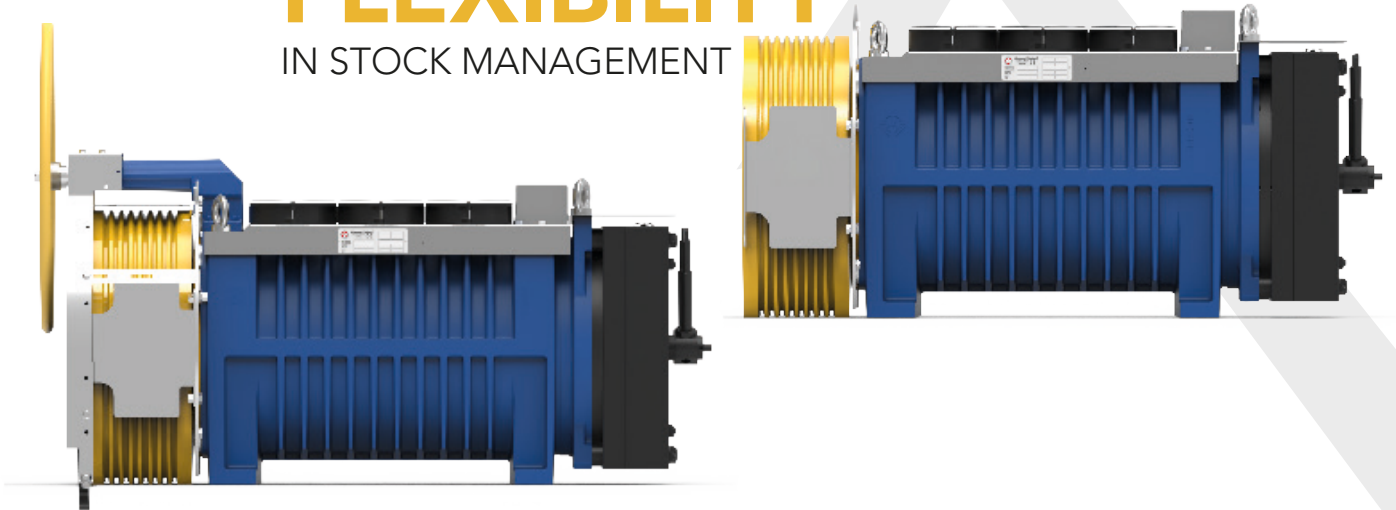

4:1 – 8.000 kg – TP 320 mm

4:1 – 6.000 kg – TP 440 mm

1:1 – 1.350 kg – TP 480 mm

MGV34XL
FLEXIBILITY

IN STOCK MANAGEMENT

COMPACT & POWERFUL

The new gearless MGV34XL extends the MGV34 range.

A powerful and reliable machine that, thanks to the flexibility of use, allows a better stock management basing on system requirements while assuring cost optimisation. **Short circuit torque always higher than the rated one** for emergency system in full safety even when battery backup is missing.

Easily transform your MRL machines stock from MR and viceversa.

The Kit, is composed of a flywheel, a safety contact a connection arm, a geared wheel and a protection cover. It can be ordered also separately and allows a really flexible use of these machines.
